KNOT-TEC THE EVOLUTION OF BALER TWINE

REFERENCE	WEIGHT	SPOOLS PER PACK	PACKS PER PALLET	COLOR
MAXXCORD 108	21,2KG	2	56	PINK
	12.6KG	1	84	

Born from extensive field testing with the new generation of high density balers, and from the joint development with one of the biggest and most important worldwide producers of biomass, MAXXCORD - the world's most advanced HD baler twine!

Complete with CordexAgri Knot-TEC technology, Maxxcord has the perfect formula combination of Knot Performance, Ultimate Strength, Long Length and Good Visibility.

It is the ultimate accompaniment to all the ultra-high density balers and it has proven to work in all conditions to produce the highest density bales possible.

Our commitment is to continue to innovate on a daily basis, because our main concern above all others, is to offer the end user the best possible option to ultimately help him increase baling performance and therefore profitability for his business.
