Industries professional choice

**“Weaving your future today”**

# POLYPROPYLENE MULTIFILAMENT YARNS

**“CordexPro combines the latest generation technologies,  
and first grade raw materials together with own  
staff expertise and know-how.”**

## Tenacity (gf/den)

**7,0 - 7,5 (g/den)**

## Presentation:

> 8,5kg spools  
(lower upon request)

## Possible Applications

Safety Nets  
Sports Nets  
Fishing Nets  
Cordage  
Technical Fabrics  
Sewing Threads  
Upholstery  
Belts  
Tapes, Belts and Webbing

## Product Properties

Material: Polypropylene  
Chemical Resistance: Very Good  
Specific Gravity (Density): 0.91  
Abrasion Resistance: Premium Quality for Weaving  
Water absorption: <0.1%  
Thermal:  
Softening - 145- 155 °  
Melting - 160- 175 °  
Elongation: 16 to 24%  
Light fastness : Most colors 7-8  
UV Resistance:  
Standard - 120 Klys  
Extra - 300 klys

## Ultimate strenght - High Tenacity

- > Full Denier Coverage
- > Wide Color Range
- > Possibility to supply twisted PP Multi upon request

MADE IN PORTUGAL
