

CORDEXAQUA combines last generation technologies, first grade raw materials and our staff's experience and ability.  
Your satisfaction is our "number 1" goal!

The result is CORDEXAQUA  
a line of twisted and  
braided ropes/twines up to  
date manufactured for  
professional fishing,  
aquaculture industry and  
marine crafts  
under traditional  
processes guaranteeing  
the excellence of the  
products and customer's  
tailor made solutions.

Multifilament version of high  
tenacity, high elongation and very  
soft touch similar to nylon and  
polyester.

Good resistance to breaking and  
high resistance to abrasion.

Manufactured with anti-UV  
stabilized Polypropylene yarns.

The most economic lightweight  
synthetic floating twine.

Used on: primarily for repairing  
fishing nets
